Application for Patent Term Adjustment

Application Number: 10/506,500

Confirmation Number: 2839

Applicant: Okrongli, Oliver

Filing date: 03 September 2004

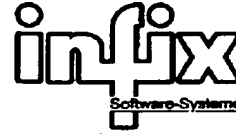

Sir:

The patent term calculation on PAIR shows 92 days of applicant delay between final rejection (05-02-2007) and RCE (11-02-2007). However, the calculation does not take into account applicant's timely after-final reply (06-29-2007). A petition dated 12-21-2007 for review by the Technology Center SPRE regarding the Office's inaction on that after-final reply is still pending.

The record demonstrates that there were no circumstances constituting applicant's failure to engage in reasonable efforts to conclude processing or examination of the application as set forth in 37 CFR § 1.704. Therefore, applicant requests reconsideration of the patent term adjustment determination and adjustment by at least 92 days.

As the current patent term calculation is wrong due to Office error, which has already been reported by applicant, applicant requests a waiver of the requirement to pay the fee set forth in 37 CFR § 1.18 (e).
